

CONSERVATION WALKS

Permissive access can now be gained over the area of Huntsham Castle, a Scheduled Ancient Monument, which is an Iron Age hill fort with views stretching over the surrounding countryside. Management to control scrub and erosion on the ramparts will help retain this historic site. The row of mature beech trees, which are several hundred years old, cross the site marking the parish boundary. Please be aware that branches may fall in windy weather.

This access has been provided under the Department for Environment, Food & Rural Affairs' farm conservation schemes, which help farmers and land managers protect and improve the countryside, its wildlife and history. It is permissive access and no new rights of way are being created. Existing rights of way are not affected. Please follow the Country Code and observe any other requirements shown above. Do not disturb wildlife, livestock or other visitors and in particular keep dogs under control. This is working farmland so please take care; people using this site do so at their own risk. Access ends in September 2010.
